EMMA HJORTH SCHOOL, 2022

Ola Roald architects

Emma Hjorth Barneskole is a elementary school in Bærum municipality, close to Oslo, Norway. The original bulding was built in 1997. Ola Roald Architects were assigned the task to design an extension to the existing school and also design a new gym. The original facades are brick and this is continued as facade material on the new building aswell. We worked with CLT constructions for the new buildings. The excisting school have had improvements to the plan and a new colourpalette.

Client: Bærum Municipality
Location: Bærum, Norway
Type: Educational
Size: 8 500 m²
Budget: 250 mio NOK
Role: Project architect
Firm: Ola Roald Architects
Status: Under construction

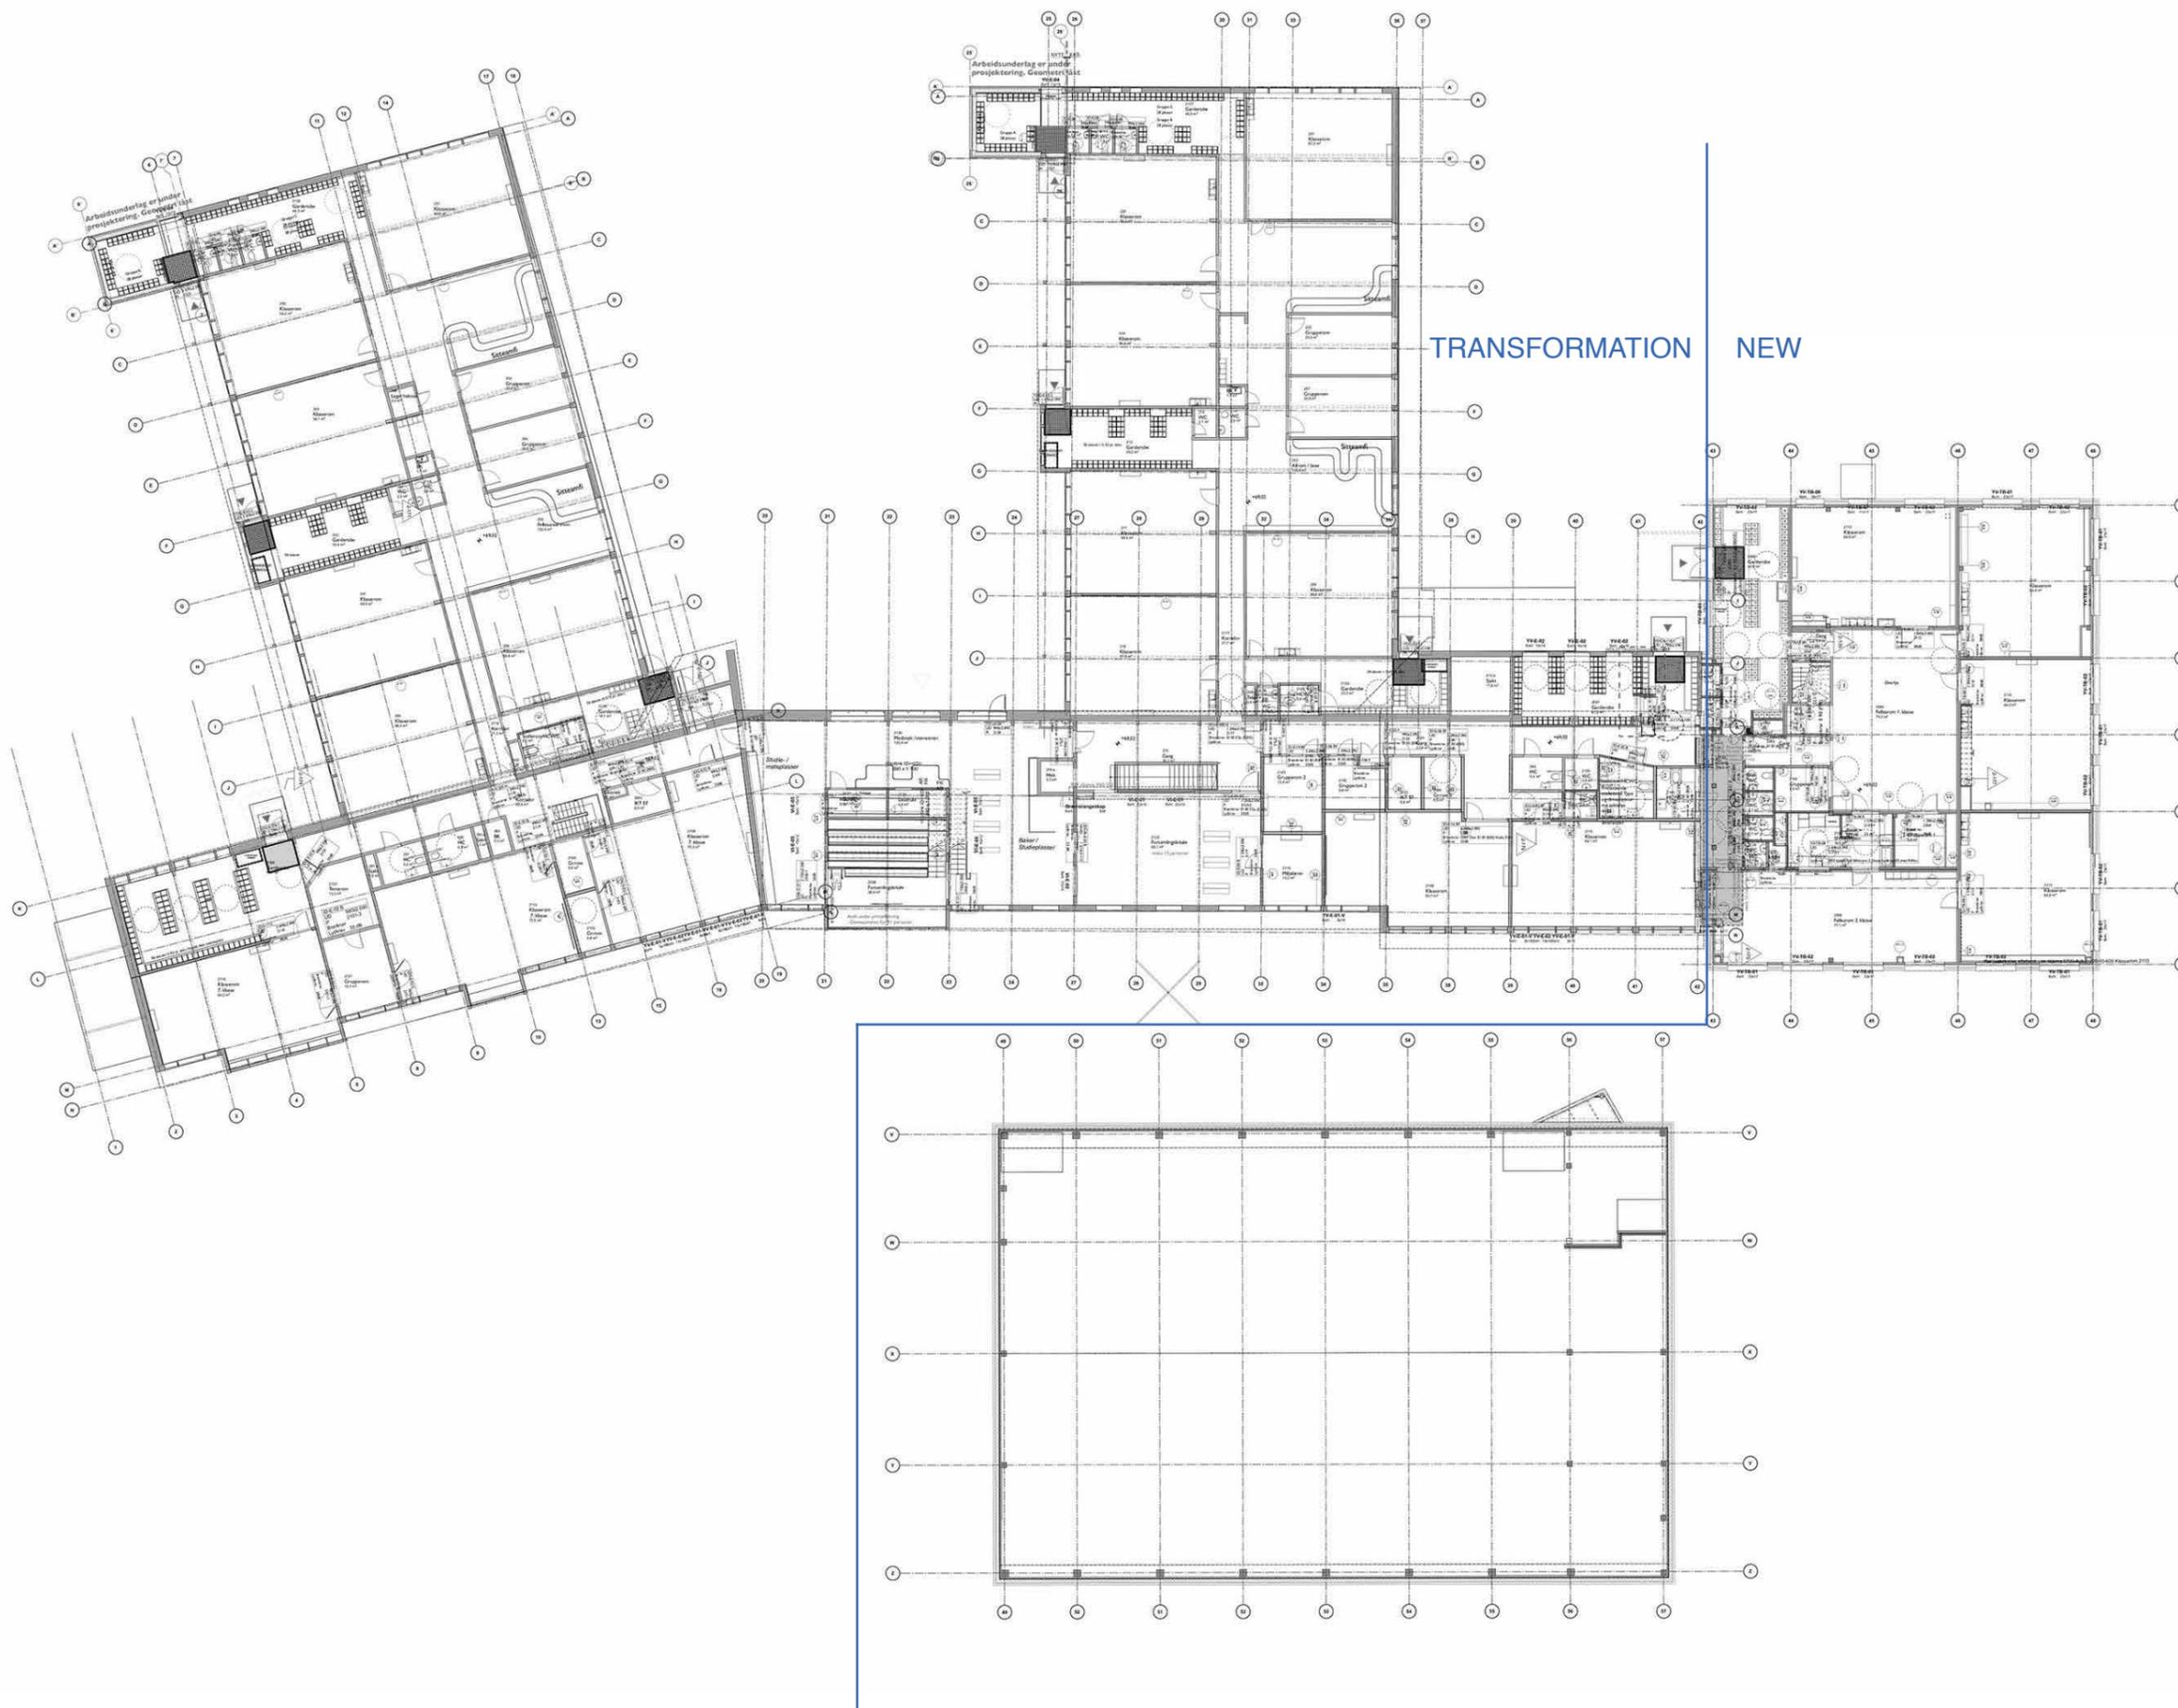

Software: Archicad, Adobe PS and ID

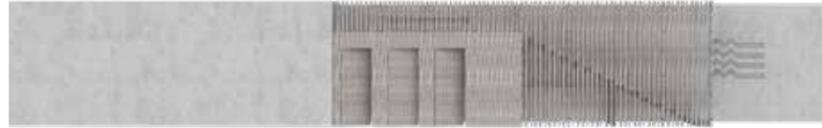

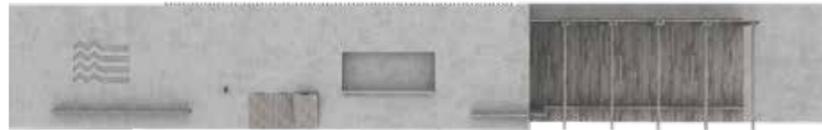

PROFESSIONALLY MADE RENDERING - OUTSOURCED

My role: buildingdesign, modelling, viewsettings and
feedback/communication with visualization firm: Beauty
and the Bit.

"The line" / multifunctional wall

02

COLD HAWAII INLAND, 2018

A line in the landscape, Competition proposal,
Spektrum architects

"A line in the landscape" is the creation of a strong and robust architectural element with a single expression that goes into dialogue with the surrounding landscape. The "line" consists of a multifunctional wall, recognizable in the landscape as the new marker for activities of Cold Hawaii Inland. The project spans over several locations on and around Limfjorden, Thisted municipality.

Client:	Cold Hawaii, Thisted Municipality
Location	Thy, Denmark
Type	Coastal protection, recreational, activity center
Size	Various
Role	Sketching architect, competition Graphics Plans and section
Firm	SPEKTRUM in collaboration with NORRØN architects
Team	Joan Raun, Sofie Willems (Spektrum), and various from Norrøn
Status	Under construction
Software	AutoCad, Rhinoceros, Adobe PS, AI and ID

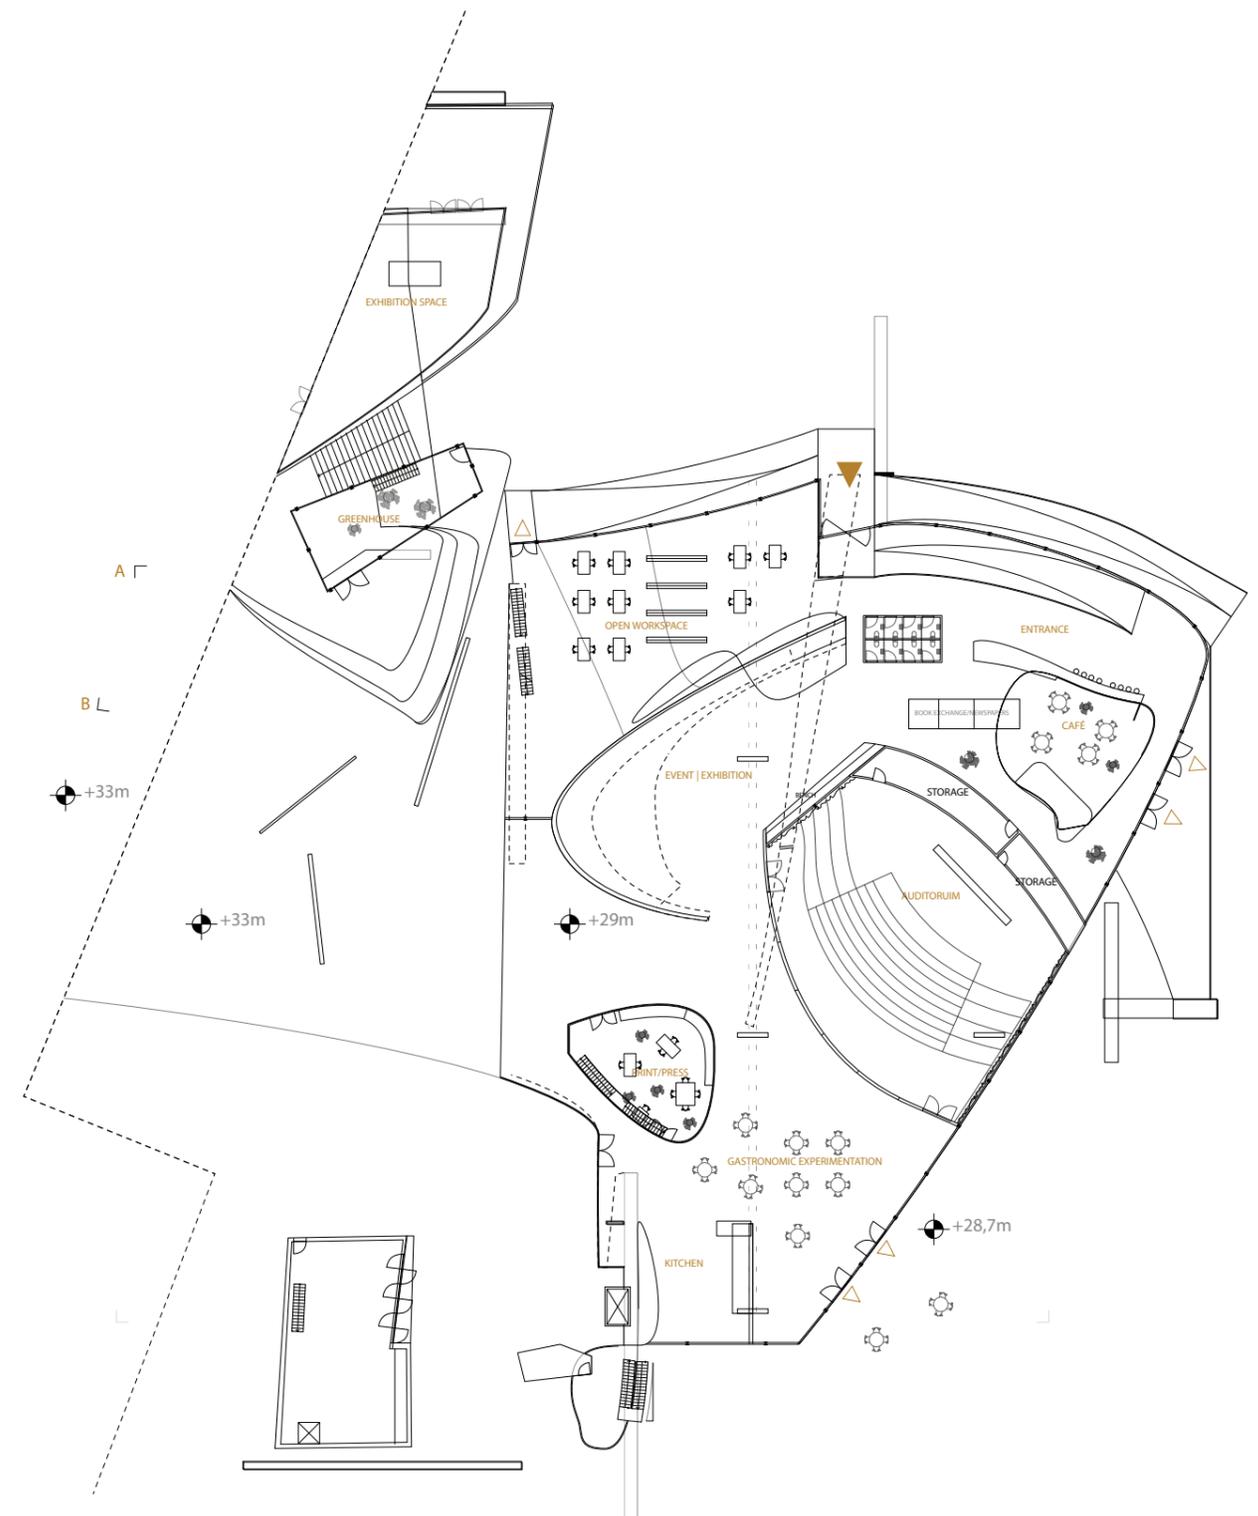

A.01

ARCHIPELAGO, A PLACE IN BERLIN, 2017

An investigation of nothing, Graduate project, KADK

Archipelago is supported by the idea of an accessible and transformative urban space. The project focuses on creating a framework in the public space that provides space for both the crowd and the individual. In the project I seek a different definition of urban space, inspired by the history of Kunsthaus Tacheles, the occupants and "nothing only exist within something" (John Cage).

Client:	Student project, KADK
Location	Berlin, Germany
Type	Recreational, academic
Size	22 000m ² /
Budget	--
Role	Student architect
Team	Solo project
Firm	The Royal Danish Art Academy, School of Architecture, KADK
Status	Academic project
Software	3ds Max, Rhinoceros, Autocad, Adobe PS, AI and ID

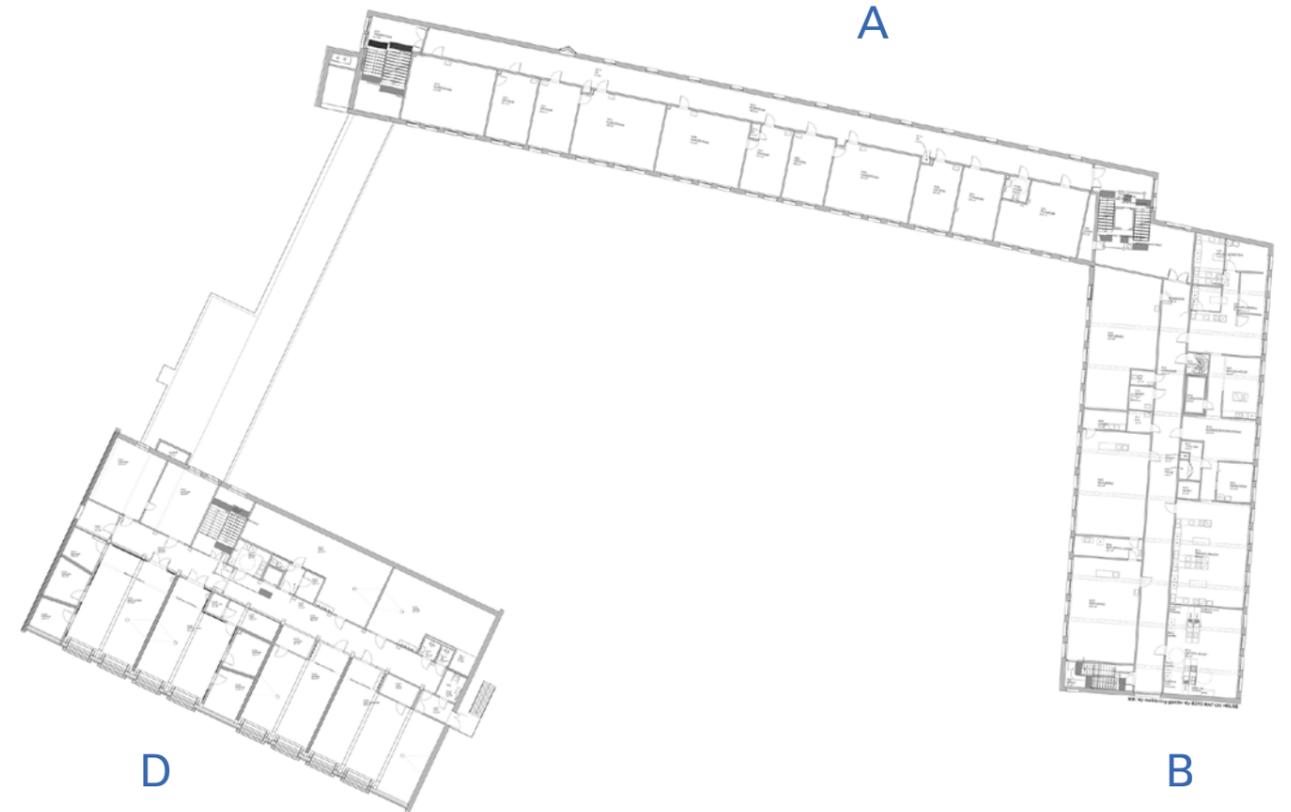

04

MO MIDDLE SCHOOL, 2018

SPINN architects, Educational architecture
D-building

As part of a bigger renovation, the D-building have been transformed from sporthall to classroom for art and music on the 2. floor. 1. floor is transformed to a special needs department. The plans have been completely reworked within the framework and the facade have been updated with bigger windows and new cladding.

Client:	Rana municipality
Location	Mo i Rana, Norway
Type	Educational, transformation
Size	6780 m2
Budget	--
Role	Project architect
Firm	SPINN
Team	Alf Ingar Svinterud, Marion Plugfelder, Miriam Sivertsen
Status	Built
IT	Archicad

05

RAVINEN CULTURE AND FAMILY CENTER, 2020

SPINN architects

A complex program, ranging from culture school to child welfare offices, had to be reworked within limited space and limited budget. The program included a lot of smaller offices an important aspect in this project is to secure enough daylight. The library and other public spaces within Ravinen are simple in shape using interior to create different types of meeting places.

- Client: Rælingen municipality
- Location: Rælingen, Norway
- Type: Health and culture center
- Size: 5000 m2
- Budget: 165 mio NOK
- Role: Project architect
- Firm: SPINN
- Team: Alf Ingar Svinterud, Gunnar Aasen Rogne, Line Johannessen, James Dodson
- Status: Built
- IT: Archicad

Early sketch for plan drawing of Heidenreich after transformation.

Axonometry of Heidenreich after transformation. Keeping a lot of the existing structure (beams, columns and facade/windows).

06

VOLDSLØKKA SCHOOL, 2018 (and again 2021)

SPINN architects

Working on the existing Heidenreich building, modelling and analyzing the program. The interior and plan layout are being fully transformed to house the art and music classes for the middle school and culture school to use in the evenings. The facades and interior beams and columns are being restored to its original state.

- Client: Oslo municipality
- Location: Oslo, Norway
- Type: Educational, newbuilt and transformation
- Role: Sketching architect
- Firm: SPINN
- Status: Built
- IT: Archicad

Existing interior Heidenreich building

Voldsløkka school campus includes a new building and the transformed Heidenreich building. The two volumes connects via a bridge on the second floor.

Stavanger, 09.08.2022

Attest

Rebecca Eide Strøm, f. 28.12.1990, har i perioden 16.02.2018 - 31.07.2022 vært ansatt som arkitekt i 100 % stilling ved vår avdeling i Stavanger.

Rebecca har jobbet med mange typer oppgaver, og er en dyktig og engasjert arkitekt. Hos Spinn har hun vært prosjektmedarbeider på flere prosjekter i alle faser med fokus på tidlig prosess og har i enhver oppgave levert over forventning. Rebecca er spesielt dyktig til å sette seg raskt inn i nye oppgaver og identifisere relevante problemstillinger. Hun har en meget god evne til å fungere i ulike sammensatte team med både interne og eksterne deltakere.

Vi opplever Rebecca som omgjengelig, nysgjerrig og en konstruktiv samtalepartner. Hun jobber selvstendig, er faglig dyktig og løsningsorientert. I tillegg til å være en faglig bidragsyter har hun også bidratt aktivt og positivt til det sosiale samholdet på kontoret.

Hos SPINN har Rebecca jobbet på flere prosjekter, bl.a.

- Konseptvalgutredning Nordstrand
- Ravinen kultur- og familiesenter
- Kongsberg vgs.
- Voldsløkka skole
- Mo ungdomsskole
- Haraldsvang ungdomsskole konkurranse

Grunnet lav oppdragsmengde har Rebecca siden februar 2022 vært leid ut til Ola Roald Arkitekter.

Vi kommer til å savne Rebecca. Vi ønsker henne lykke til videre og stiller gjerne som referanse ved behov.

Vennlig hilsen

Marion Pflugfelder
Partner / avdelingsleder / seniorarkitekt

12. februar 2017

ANBEFALING

Arkitekt Rebecca Eide Strøm har taget afgang fra Arkitektur, rum og tid i januar 2017. Med mit kendskab igennem flere år til Rebecca, som hendes lærer, kan jeg overordentlig varmt anbefale hende.

Rebecca Eide Strøm har gennemført et meget smukt og seriøst studie, der overbevisende udviser hendes begavelse og udpræget kunstneriske begavelse og talent for arkitektfaget.

Rebecca studieresultater viser en personlig og konsistens tilgang til arkitekturen, hun tegner meget præcist og smukt og har en særdeles veludviklet rumlig sans, der viser sig gennem hendes mange komplekse og fine tegninger og arbejdsmodeller i studiet.

Rebecca Eide Strøm har således gennemført et meget koncist og kompetent studie med et forløb der er smukt sammensat med meget personlige resultater.

At Rebecca Eide Strøm også er en utrolig behagelig person, der udtrykker sig præcist og åbent, giver et samlet fint billede af en overordentlig kompetent studerende og hvor jeg naturligvis håber på, at hun vil få mulighed for at kunne komme til at indgå i et fremtidigt inspirerende fagligt miljø.

Med de allerbedste anbefalinger

Cort Ross Dinesen
Arkitekt, programansvarlig
