TREDJE NATUR

17.05.2023 - Copenhagen

To whom it may concern,

I am writing this letter to provide my recommendation of Kasper Brix Havemann based on his performance during his two-year tenure as a part-time model builder at our office Tredje Natur in Copenhagen. Having worked with Kasper, I can confidently attest to his skills, work ethic, and positive contributions to our team.

Kasper has worked for two years in our office alongside his studies and has mainly worked on physical models, but has also undertaken assignments including 3D modeling, drawing, rendering, and graphic presentations. Throughout Kasper's employment with us, he has consistently demonstrated a remarkable aptitude for model building and a keen eye for detail. He exhibited a thorough understanding of our architectural process and techniques and a high level of craftsmanship in his work.

During his tenure Kasper has been easy to work with, reliable and flexible in terms of time management between his studies and our office, but also when it came to our different needs and requirements at the office.

Socially Kasper contributes to a positive and constructive work environment and was always open to helping his colleagues. I would highly recommend Kasper for any future endeavors within the field of architecture or related disciplines, as I am confident that he will continue to excel and contribute positively to any organization he joins.

Should you require any further information or have any specific inquiries, please do not hesitate to contact me at +45 28290279/ mk@tredjenatur.dk

Yours sincerely,

Malene Krüger
CEO

Anbefaling

Kasper Brix Havemann er i øjeblikket indskrevet som 3. års studerende på Institut for Bygningskunst og Teknologi. Som en af Kaspers undervisere har jeg fulgt hans studier i løbet af det akademiske år 2022. Kasper er en dygtig arkitektstuderende, som evner at håndtere komplekse projekter. Hans metode og analytiske evne er på et tilfredsstillende niveau i de forskellige faser af projektet.

Kaspers opgavebesvarelser er præget af en forståelse for fagets tektoniske aspekter, hvor han formår at balance sit projekt mellem den konceptuelle ideudvikling og en personlig tilgang til opgaven.

I sit studie udviser Kasper en interesse for den arkitektoniske kontekst og kulturmiljø som opgavens stilles i og han formår at indarbejde registreringer og bygningskulturelle særpræg i sine projekter. Kasper behersker en række digitale tegneværktøjer samt modelbyggeri, og er i stand til at kommunikere sine ideer og projekter præcis gennem præsentationsmaterialet.

Kasper viser på mange måder modenhed - i diskussionerne ved tegnebordet samt ved hans præsentationer. Med min nuværende viden om Kasper Brix Havemann arkitektoniske og personlige evner, kan jeg give ham min anbefaling.

Med venlig hilsen

Martin Winther
