

SARA VUJNOVIC

A Master's degree student, strongly interested in sustainable practices: energy-efficient building, upcycled materials, renovation and retrofitting projects, biophilic and accessible design. Professionally, a digitally skilful, easily adaptable, time-efficient and funny colleague.

Education

Energy-efficient and Environmental Building Design 2023-now
Lund University
Master's Degree

Architectural Technology & Construction Management 2019-2023
Københavns Erhvevsakademi
Bachelor's Degree

Architecture 2021
Hanyang University, Ansan, South Korea
Exchange Program

Natural Sciences High School 2015-2019
V gymnasium, Zagreb, Croatia
Advanced Mathematics Program

Experience

BIM Student Assistant 2023-now
Krüger, København

Student Assistant 2022-2023
COWI, København

Constructing Architect Intern 2022
Arkitema, København

Other experiences

Scout leader 2017-2022
Scout Movement of Croatia

Bamboo Construction 2023
Independent Projects in Colombia
Carpentry with bioconstruction: bamboo, wood, soil, hay

Specialties

Technical drawings	BIM
Document management	
Model creation	
Automatization (Dynamo)	
Technical details	Construction
Moisture-safety analysis	
Building material selection	
Daylighting analysis	Sustainable Design
Energy-use calculations	
Thermal comfort analysis	
Accessible design	
Project scheduling	

Interests
