

ALMA WUNSCH

MASTERS STUDENT – NORDIC URBAN PLANNING STUDIES

My vision is to develop urban environments that are inclusive, livable and accessible for all. While my background may be unconventional for an urban planner, I bring a wealth of experience in project management and communication skills from my previous full-time position at the International Paralympic Committee. My extensive interest in urban planning and design, coupled with the expertise I am gaining in the Nordic Urban Planning Studies Master's programme, enables me to transition into a career as an urban planner.
