With over 8 years of experience in architecture and interior design, my personal approach emphasizes the balanced connection between architecture, interior design and human well-being. Studying at IUAV in Venice and then working alongside interior contract firms and artisans, I developed a deep respect for craftsmanship and design. I believe in Architecture as a whole work, where interior and exterior are parts of the same building.

Interests

Botanical gardens and plants, ballet and performing arts, pastry and specialty coffee, french fries and craft beer, DIY and product design, hand drawing.
