Toftegårds Allé 1, 4. 2500 Copenhagen/Denmark

ABOUT

I am an experienced architect specialized in design with the ability to develop and detail 3D/2D project phases. I have been involved in various disciplines aiming to build up a broader vision as a designer. For a better urban future, I believe in the importance of a sustainable and democratic approach in architecture. I am flexible and open towards new ways of working and collaborating. I like being social. I enjoy both working in a team and individually.
